

Angie Star Jewelry Internship Program

We are pleased to offer several sessions of work-to-learn jewelry design internship possibilities each year. Our highly trained staff takes several jewelry apprentices each year, and teaches in-depth foundations of jewelry design and fabrication. Sessions cover a range from Basic Jewelry Making and Repair to Beginning Silversmithing.

We work directly with universities for accredited internships. Spring, Fall, and Summer sessions are available each year in 12-20 week-long sessions for 6-12 hours per week. Please send resume and email Angie for more details!
